

The dot plot displays the frequency of different heating types across six categories. The x-axis, labeled 'Heating', lists the categories: GasA, GasW, Grav, Wall, OthW, and Floor. The y-axis represents the frequency, ranging from 0 to 100. GasA shows a very high frequency, with a peak near 100. GasW, Grav, Wall, and OthW have much lower frequencies, mostly below 10. Floor has a single data point at a frequency of 1.

Heating	Frequency
GasA	100
GasW	10
Grav	10
Wall	10
OthW	10
Floor	1
